

Write given C program logic using for loop .

1. WAP in C to print even factor of 512.

2. WAP in C to count digits more than 5 .

i/p1: n= 449961 o/p: 3

i/p2: n= 567 o/p: 2

3. WAP in C to sum of even digits .

i/p1: n= 227733 o/p: 4

i/p2: n= 5672 o/p: 8

4. WAP in C to print all odd factor of 900.

5. WAP in C to print even number (using bitwise operator) b/w 299 to 275.

6. WAP in C to print alternate odd number between 21 to 39.

o/p: 21 25 29 33 37

7. WAP in C to print given series .

1 2 4 7 11 16 22

8. WAP in C to print given series .

-13 -8 -4 -1 1 2.

9. WAP in C to print given series .

2 9 28 65 126 217
