

Char + Number

```
1
void main(){
char CSK=0xCC;
printf("%d \n",CSK);
}
```

```
2
void main(){
char CSK=0xFB;
printf("%d \n",CSK);
}
```

```
3
void main(){
char CSK=0xDCBA;
printf("%d \n",CSK);
}
```

```
4
void main(){
char CSK=0xCAB;
printf("%d \n",CSK);
}
```

```
5
void main(){
char CSK=0x0F;
printf("%d \n",CSK);
}
```

```
6
void main(){
char RCB=0770;
printf("%d \n",RCB);
}
```

```
7
void main(){
char RCB=0321;
printf("%d \n",RCB);
}
```

```
8
void main(){
char RCB=0333;
printf("%d \n",RCB);
}
```

9

```
void main(){  
char RCB=0300;  
printf("%d \n",RCB);  
}
```

13

```
void main(){  
char SRH=226;  
printf("%d \n",SRH);  
}
```

10

```
void main(){  
char RCB=03232;  
printf("%d \n",RCB);  
}
```

14

```
void main(){  
char SRH=356;  
printf("%c \n",SRH);  
}
```

11

```
void main(){  
char SRH=146;  
printf("%d \n",SRH);  
}
```

15

```
void main(){  
char SRH=456;  
printf("%d \n",SRH);  
}
```

12

```
void main(){  
char SRH=186;  
printf("%d \n",SRH);  
}
```

16

```
void main(){  
unsigned char coding;  
coding = 0x12345;  
printf("%d \n",coding);  
}
```

17

```
void main(){  
    unsigned char coding;  
    coding = 0xAC;  
    printf("%d \n",coding);  
}
```

18

```
void main(){  
    unsigned char coding;  
    coding = 0xCC;  
    printf("%d \n",coding);  
}
```

19

```
void main(){  
    unsigned char coding;  
    coding = 0x786;  
    printf("%d \n",coding);  
}
```

20

```
void main(){  
    unsigned char coding;  
    coding = 0xBBC;  
    printf("%d \n",coding);  
}
```

21

```
void main(){  
    unsigned char sirji;  
    sirji = 507;  
    printf("%d \n",sirji);  
}
```

22

```
void main(){  
    unsigned char sirji;  
    sirji = 1111;  
    printf("%d \n",sirji);  
}
```

23

```
void main(){  
    unsigned char sirji;  
    sirji = 1099;  
    printf("%d \n",sirji);  
}
```

24

```
void main(){  
    unsigned char sirji;  
    sirji = -100;  
    printf("%d \n",sirji);  
}
```
